

LINCOLN

QUILTERS GUILD

Since 1973

The Guild meets the second Monday of the month (March - November) at 7:00 p.m., at the College View Seventh Day Adventist Church located at 49th and Prescott Streets, in Lincoln, Nebraska.

Due to the evening youth activities at College View Church in conjunction with the LQG's Monday night meeting, all doors will be locked, for security reasons. Please enter the doors at the *south* entrance, numbered 2, closest to the elevators.

The parking lot will be full, as well, so plan on coming earlier to find parking available anywhere on the Union College campus as well as street parking.

The guest speaker for Monday night's guild meeting is Connie Olson of Grand Island. Quilting became Connie's passion in the late 70's. She is a charter member of the Prairie Pioneer Quilters of Grand Island, and is past Regional Director and Treasurer for the Nebraska State Quilt Guild. Connie also served as Treasurer for QuiltNebraska 2010 and most recently served on the Awards Committee for the State Guild. She helped design and did the applique for the State Guild's 2016 raffle quilt, Circles of Fun.

Having been in health care for forty-plus years, Connie credits quilt making for helping keep her somewhat sane. She has never seen a quilt she didn't appreciate and often says, "So much fabric, so many quilts and so little time!" She always has at least two projects going at any one time, as well as a beading project in the works.

In her trunk show, "ABC – Come Spell With Me," Connie will share a quilt as well as a story for each letter of the alphabet. No dictionary is required. All Scrabble players welcome!

Connie will also be teaching the "Diamonds are a Quilter's Best Friend" class on Tuesday, June 13, from 9:00 AM – 4:00 PM at the College View Seventh

Day Adventist Church in Lincoln.

In this full-day class, students will learn to create 3-D quilt blocks using 60 degree diamonds. They will also learn to draft their favorite block patterns to make additional cubes. It will be a fun, no pressure day, suitable for beginners as well as the experienced quilt maker. Even though this project may look difficult, it is soooo easy. If you can sew strips together and use a rotary cutter, you are in business! This is a technique developed by Karen Combs (karencombs.com). There are two different sizes of blocks and generally everyone finishes at least one block and usually more during the class. Templates will be provided by the instructor and are included in the class fee.

Please note this class is full, but we are able to add a few more registrations. Contact Donna Welte at (402) 234-7329 if you're wanting to register for the class.
