Pat Hackley was sent an article and picture of former Quilters Guild member--Jackie Dittmer who moved to Ohio in 1983 where her husband Allen is associate dean of OSU in Mansfield, Ohio.

The article tells of Jackie's interest in quilting, how her Nebraska Friends gave her a set of quilt blocks of different colors in the Ohio Star pattern.

Jackie continues with her hobby and has started a small quilting group in Mansfield. She is now working on what she wryly calls her "24 House Quilt." She says it's named not so much for the 24 little school houses but rather because she may very well work on it in 24 houses. After all, she has moved to four houses already since she started it.

-I will have the artical at the January meeting for anyone who is interested in reading it.
