Ogee Lotus Class
Sacred © Karen K Stone 2019

Supply List:

Fabric: Most people complete one block in class. To master the technique, it's only necessary to bring a **half-yard each of two contrasting solids**. But you're absolutely welcome to play around with gradations in the figure and/or ground.

Pinnable personal ironing board (pins will stand straight up firmly). This can be wool mat or a piece of 1" insulation or foam core covered with muslin, or a purchased board e.g. June Taylor's Cut and Press board. It should be about 12" x 18".

Rotary cutting supplies, medium.

Basic supplies: Fabric scissors, straight pins, tape, removable marking pen.

Iron (dry, NO water), **stick craft iron** (optional), **spray sizing** (best) or starch (not BestPress for this).

Kit fee \$15: pattern pages, glue, knife, template material, misc. shared supplies.

No sewing machines, as your glue-basted block will stand up fine to your travels home. To finish up your blocks after class, you'll need your sewing machine (zig-zag) with invisible monofilament thread on top, and your usual bobbin thread.
