Instructor: Dana Jones

Workshop: Fabulous Freeform

## **Supply List**

### **Fabric:**

For the rag-rug effect, you'll need an assortment of stripes and plaids — if you can't find plaids, you can work just with stripes — in colors of your choosing. Or you can use any other fabrics of your choosing. I recommend you select a main color and a contrasting color. Get a range of light, medium and dark fabrics in your main color. Plan to work with fat quarters for a quilt that finishes about 18-20 inches wide. If you have fabrics in your stash in smaller cuts, you may also be able to use these, so bring them. You'll want a minimum of 12 fabrics in your main color and four in your contrast color. The finished dimensions of your quilt will depend on the width of the fabrics you use and the number and width of the strips you cut.

### **Other Supplies:**

- Rotary cutter with fresh blade
- Marking pencil or pen that will show on your fabrics
- Thread for piecing
- Sewing machine in good working order
- Thread snips or scissors for cutting thread
