

FRACTURED PINEAPPLE BLOCK

This class will use the above pattern to create your blocks. We will be teaching you how to create paper pieced blocks that you can then use to make your own quilt. Copy off the pattern onto regular printer paper and bring at least 10 to class. We will be stapling them together and sewing through the paper to replicate the pattern onto the back of each sheet. There are 120 blocks for the quilt created on the website. They were all done scrappy so there is not an exact amount of fabric needed. Bring your own scraps or a collection of yardage that you like to make your own beautiful pineapple quilt.

You will need an "Add -A-Quarter" 12 inch ruler, and washable glue stick along with regular sewing supplies.
